

JIM EBERHARD

SOFTWARE DEVELOPER | FULL-STACK DEVELOPER | PROBLEM SOLVER

portfolio-jeberhard.vercel.app github.com/jneberhard linkedin.com/in/james-eberhard-7582bb5

PROFILE

Full-stack software developer and BYU-Idaho Software Development graduate who builds user-focused applications with maintainable architecture. Experienced with modern web stacks, relational and cloud databases, authentication, serverless APIs, data analysis, and deployment. Leadership experience at Adobe adds a practical focus on communication, process improvement, customer needs, and collaborative delivery.

CORE SKILLS

Languages

JavaScript, TypeScript, Python, C#, SQL

Frontend

React, Next.js, Blazor, responsive UI

Backend

Node.js, ASP.NET Core, Flask, REST APIs

Data

PostgreSQL, Prisma, EF Core, Firestore, Pandas, NumPy

Delivery

Git, GitHub, Vercel, Netlify, serverless functions

Architecture

Multi-tenant systems, authentication, database and API design

Professional

Team leadership, project coordination, customer focus, process improvement

SELECTED PROJECTS

Royalty Ops

[NEXT.JS](#) / [POSTGRESQL](#) / [PRISMA](#)

Multi-tenant royalty operations platform that validates imports of up to 50,000 rows, calculates rates, generates statements, tracks payments, and maintains publisher ledgers.

KinLedger

[NEXT.JS](#) / [POSTGRESQL](#) / [PRISMA](#)

Secure family-loan ledger with exact day-count interest, idempotent monthly posting, role-based access, audit logs, and CSV export.

Independent Sheets

[NEXT.JS](#) / [NEON](#) / [VERCEL BLOB](#)

Role-based sheet-music marketplace with rights-verified PDF and audio uploads, purchasing workflows, and automatic royalty and platform-share records.

WorkSync

[BLAZOR](#) / [ASP.NET CORE](#) / [EF CORE](#)

Tenant-isolated operations workspace unifying work orders, assignments, confidential follow-ups, employee administration, dashboards, and exportable reports.

LoanLens Data Analysis

[PYTHON](#) / [PANDAS](#) / [NUMPY](#)

Analyzed 4,269 loan applications and implemented a custom logistic-regression model that powers an interactive browser-based approval estimator.

LEADERSHIP EXPERIENCE

Americas SMB Team Lead | Adobe

- Led teams and improved operational processes while completing a Software Development degree.
- Translated customer needs and business priorities into clear, coordinated work across stakeholders.
- Developed strong communication, problem-solving, project management, and collaboration practices.

EDUCATION

Bachelor's Degree, Software Development | Brigham Young University-Idaho

Coursework and projects focused on full-stack development, software design, databases, and cloud deployment.
